WHAT WE ASK

Give your athletes your code.

- ✓ Your athletes are never charged by surprise.
- ✓ We never contact your athletes.
- ✓ No cost, no contract. Stop at any time.

HOW IT WORKS

1. **Ask.** The form on our site: five fields, one minute.
2. **We send your code.** Within two working days: your code and a short text to send to your athletes.
3. **You give it to your athletes.** At the first session or in the squad group. They join with their own accounts.

WHAT DOES A COACH SEE IN WATERSPEED

A private group

Create a private group in the app. Athletes join it, and the sessions they share arrive in one place.

Athletes live on the map

Athletes who share their live position show on the map while they are on the water, from iPhone, Android or Apple Watch. A Pro feature.

Every session afterwards

Track, speed, distance and the replay with the speed chart. With Ultra: legs, tacks and gybes, VMG, true wind angle and polars by leg.

Several athletes at once

In the web app, a coach can open several athletes' sessions together and replay them at the same time.
